## NATIONAL CONCLAVE OBJECTIVE

The National Conclave on Recent Innovations in Mechanical and Civil Engineering has aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of, Civil and Mechanical Engineering. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Civil and Mechanical Engineering.

## ABOUT DR. K.N. MODI FOUNDATION

Dr. K. N. Modi Foundation has 75 years of excellence in education and a reputed educational conglomerate that encompasses various individual educational entities. Dr. K.N. Modi foundation has made immense contribution towards the society and the nation by establishing contemporary professional and technical education facilities at every level. Dr. K. N. Modi Foundation has not only set up professional and technical institutes but also established schools and even adopted an uncommon yet progressive path by setting up a Sanskrit Vidyapeeth awarding degrees of Acharya and Shastri, where teaching is based on Gurukul Methodology. Dr. K. N. Modi Foundation has appointed eminent faculty members throughout all institutions that not only excel in academic prowess but also believe in imparting holistic education and character building based on values and principles.

## ABOUT KNGD MODI ENGINEERING COLLEGE

Kedar Nath Ginni Devi Modi Engg College (KNGDMEC) is running under the umbrella of Dr. K.N. Modi Foundation since 2005. KNGDMEC is located in the heart of India's premier educational centre, the city of Modinagar, on National Highway NH-58 (on Modinagar-Hapur Road) and is at a distance of 33 kms from the Delhi Border. KNGDMEC has one of the finest interiors with a state-of-the-art infrastructure and a skilled and dedicated team available to help our learners achieve their dreams.

## ABOUT MECHANICAL ENGINEERING DEPARTMENT

Mechanical Engineering Department was started in the year 2005 with aim to strengthen the fundamentals and basics of engineering students. It is assisting B.Tech. (four year degree course). Department has always been focusing on fundamentals of mechanical engineering which excels the potentials of newcomer students in the field of engineering. In that, solar energy projects have top priorities. This conclave is organized keeping the view of solar energy developments. The young and dynamic faculty members are always dedicated to shape overall personality of students.

## ABOUT CIVIL ENGINEERING DEPARTMENT

Civil Engineering Department was started in the year 2005 with aim to strengthen the fundamentals and basics of engineering students. Civil engineers are supposed to plan, design, develop, build, manage, rehabilitate and operate the physical elements of the human habitat. Almost every aspect of daily life is impacted by projects conceived, designed and constructed by civil engineers. Civil Engineering, like all other fields, is comprised of many sub disciplines. Primary areas of concentration include transportation, geotechnical, environmental, structural engineering, and construction engineering and management.
